

NEW PATIENT WELCOME LETTER

Hello and welcome to Blue Hill Family & Cosmetic Dentistry!

At your first visit, here's what you can expect:

1. Dr. Aponte will conduct a thorough oral examination of your mouth, teeth, and gums. He will check for tooth decay, gum disease, and other things that can affect not just your mouth, but your overall health.
2. A full set of X-rays will be taken if you have not had one in the past 3 years. Please bring in your most current X-rays or ask our office to contact your previous dentist.
3. Dr. Aponte will talk to you about treatment options you might benefit from.
4. We will make you a follow-up appointment with one of our dental hygienists for a cleaning and possible periodontal treatment.

From start to finish, this first visit will most likely last one hour.

New Patient Forms can be found on our website. Please complete them ahead of time and bring them to your first appointment.

If you have had a recent surgery or medical procedure that may impact your treatment, please call our office at (931) 484-7650 before your first visit.

We look forward to meeting you!
